

EKA BLUE +

CLASSIC RANGE

EKA BLUE + is a general purpose lightweight product suitable for a wide range of applications and materials.

The aluminium oxide grit coating has excellent cutting properties and together with the semi-open grit distribution it achieves an efficient sanding operation.

Grits P 150—P 600 are additionally treated with a stearate coating which further minimizes loading problems and contributes to an improved surface finish.

TECHNICAL SPECIFICATION

Backing:	B-, C-, D -weight paper
Bonding:	Resin over resin
Treatment:	Stearate layer (P150 - P600)
Grit:	Aluminium Oxide
Coating:	Semi-Open
